Southern Group of State Foresters, 2012. Forest Health Issues Affecting Shortleaf Pine

Vegetation of the Carolinas (CVS) (<http://cvs.bio.unc.edu/vegetation.htm>) sort for shortleaf pine -- a search of upland montane forests filtered by montane xeric forests yields 7 types with shortleaf pine in the descriptor including both forest and woodland. Each one of the types is linked to 20 x 50 meter plots which you can see the composite results for vegetation, structure, and soils info
